

Séminaire du Laboratoire de l'Accélérateur Linéaire

Joey Huston

Michigan State University

Jour inhabituel

Lundi 21 Juin 2010 à 11 :00

QCD for the LHC

The LHC will be a qualitatively and quantitatively different environment than the Tevatron, from the QCD perspective. I will review some aspects of QCD at the LHC, concentrating on PDF predictions and uncertainties, on the impact of higher order perturbative QCD calculations, and on the role of jets and jet algorithms.

Salle 101 du LAL - Bât. 200, Orsay

Thé et café seront servis 1/4 h avant le séminaire

Responsables : N.Leroy (leroy/lal.in2p3.fr) - B. Viaud (viaud/lal.in2p3.fr)
