

# Workshop summary

- **Time for action!**
- **Reason is (beneficial) tension between success and structure**
  - Current model present problems
  - Success requires more stable structure
- **Deadline is FP7 driven: eIRG/ESFRI**
  - EGI infrastructure MUST be in the roadmap!!!
  - Beware: FP7 budget 50 G€
- **All NGIs being set up in parallel (dual motivation: national added value/efficiency at european level)**
  - National degrees of freedom
  - « Staircase » strategy
  - A lot of similarities between Spain, Portugal, France status and initiatives
  - EGEE/DEISA duality (nation/european level)
  - International cooperation at that level ?
- **EGI/NGIs and business**
- **How to dig upon Bob's proposal**
  - Non competitive call with long term cycle
  - GEANT paradigm OK but not exactly the same!
  - Role of CERN
  - Many international inputs
- **EGI and developing countries**
- **We need the talks on the Web asap !**
