

The movie Touschek with AdA in Orsay

by Enrico Agapito, Luisa Bonolis and G.P.

- In 2005 the movie “Bruno Touschek e l’arte della Fisica” was made by Bonolis and Agapito after suggestion by Carlo Bernardini
- In 2008 the English version of the movie was prepared and I came and showed it in Orsay in 2009
- The possibility of a movie about Touschek in Orsay was mentioned at the time
- In 2011 LAL and LNF directors, Umberto Dosselli and Achille Stocchi, established a scientific twinnage between Frascati and Orsay
- Last May, INFN approved making a movie about “Touschek with AdA in Orsay”

We interviewed both French and Italian protagonists of the story

French side : interviews in French and English

- Jean-Eudes Augustin
- Jacques Haissinski
- Francois Lacoste
- Maurice Levy
- Achille Stocchi

~ total over **2 hours** of interview time

Italian side: interviews in Italian and English

- Carlo Bernardini
- Peppino di Giugno
- Umberto Dosselli
- Mario Fascetti
- Luciano Maiani
- Giorgio Salvini

~ over **4 hours** of interviews

The movies to be shown today and tomorrow

Today

- We present a version **in English** with some subtitles
- The movie lasts **26' 43"** between interviews and narration
- Only **short excerpts** from the interviews are presented today
- Large parts of **high historical value** could not be included, we hope to do it for a longer version
- **An Italian** version is on the making: interviews will be in original Italian and French, the latest with Italian subtitles

Tomorrow

- A short 6' minute version has been prepared in **French** for the general public
- Thanks to Nicolas Arnaud for translating the texts

Acknowledgements

- We apologize for the **cuts**: choice had to be done to have the story flow
- Today we have an **anteprima**, a final version will be appearing shortly, after some necessary adjustments
- Possible **errors**? Please let us know, we shall correct them in final version where **NLO adjustments** will be done
- **Thanks** to INFN, to Umberto Dosselli, Carlo Bernardini, Jacques Hassinski and Achille Stocchi for invaluable cooperation and assistance
