

The Progress of Tianlai project 2013.11.14 (site & experiment)

(1) Site:

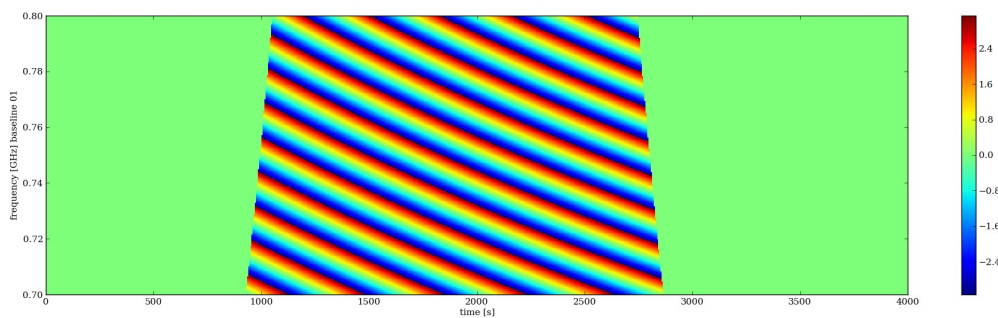

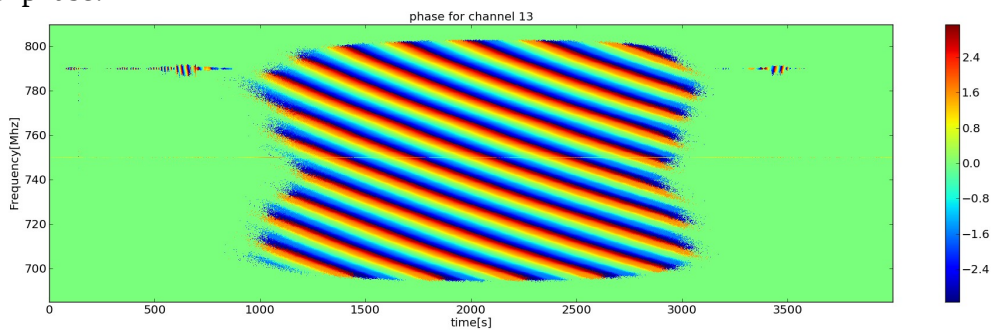

Land acquisition of DaShangkou is still going on.

(2) Experiment:

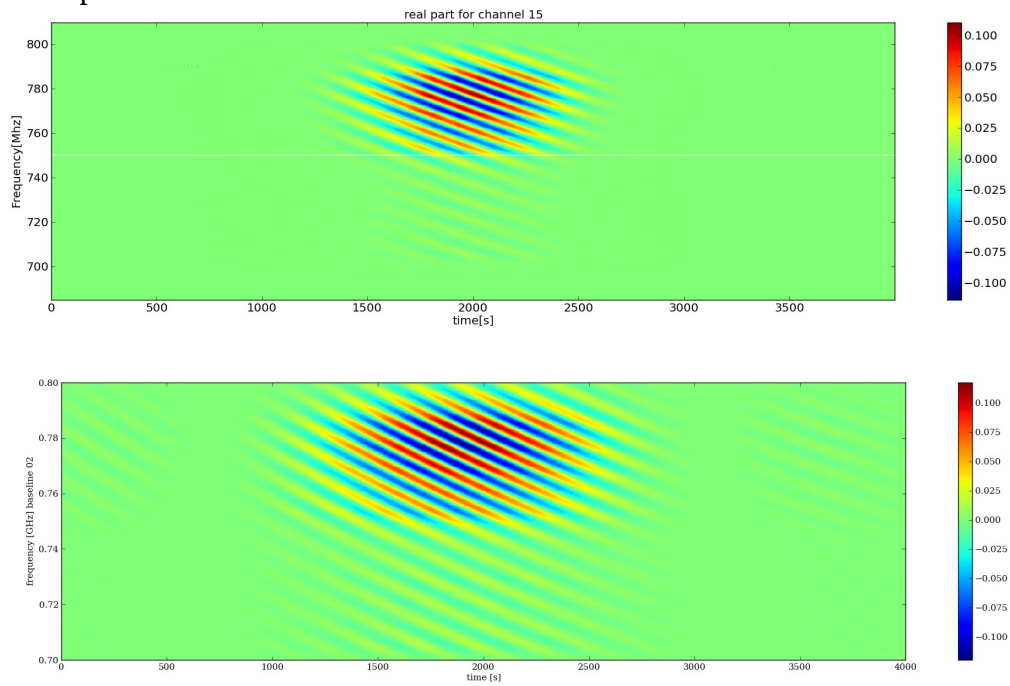

a) System temperature:---- about 70 K
replace feed with signal generator and 50 Ohm terminator

b) Compare observation with theoretical prediction:

13channel phase:

15channel real part:

c) closure phase of 13-35-51 channel:
