

# Africa-EU Cooperation in the ICT/S&T domains

Internet and Grid computing Seminar

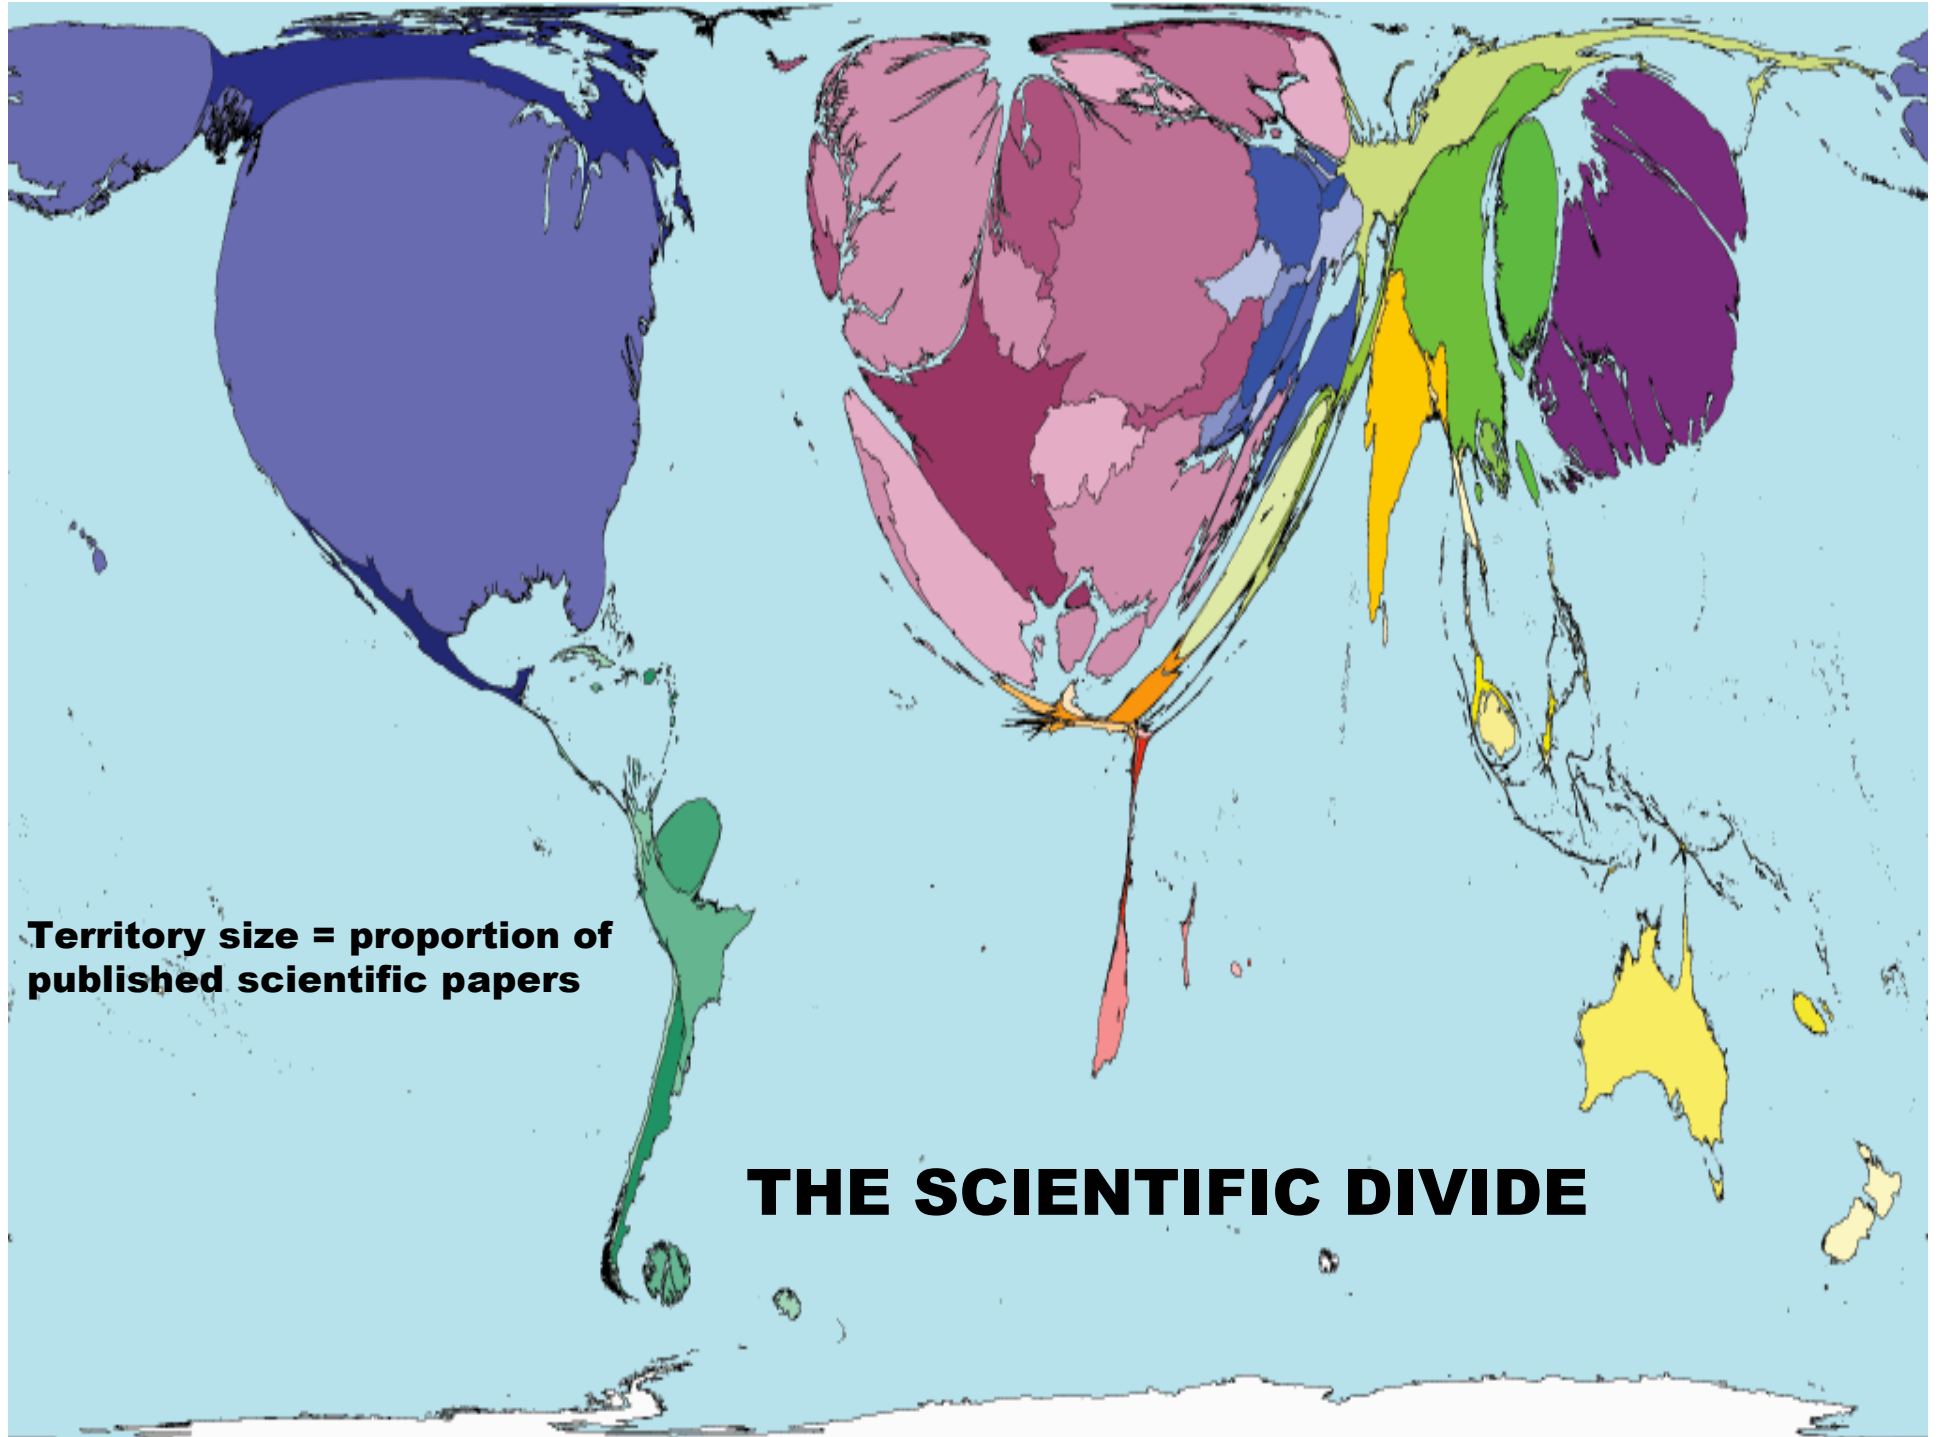

Montpellier, 11/12/2007

Thierry Devars

European Commission / DG INFSO

[thierry.devars@ec.europa.eu](mailto:thierry.devars@ec.europa.eu)

**Territory size = proportion of published scientific papers**

# **THE SCIENTIFIC DIVIDE**

# **THE DIGITAL DIVIDE**

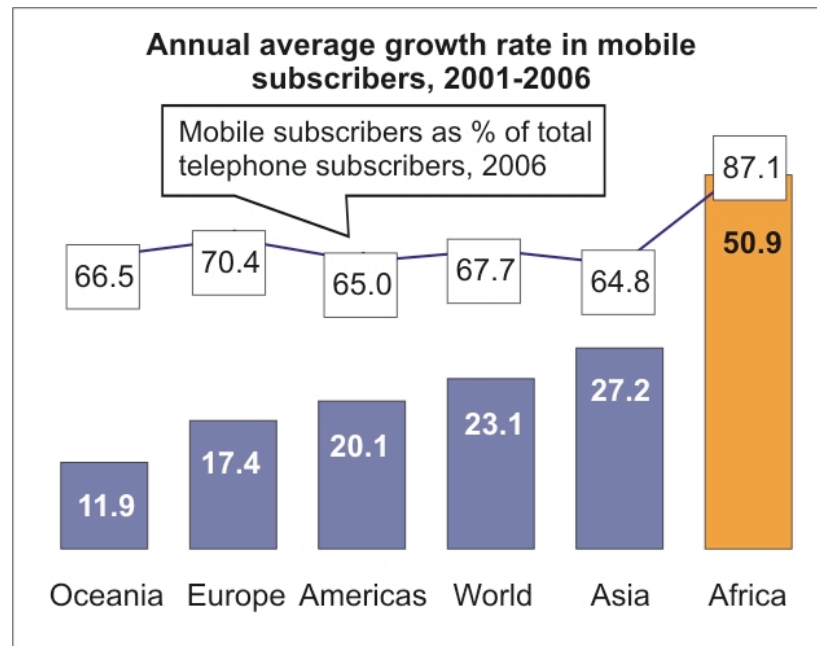

Earth at Night

More information available at:

<http://antwrp.gsfc.nasa.gov/apod/ap020810.html>

# The mobile boom

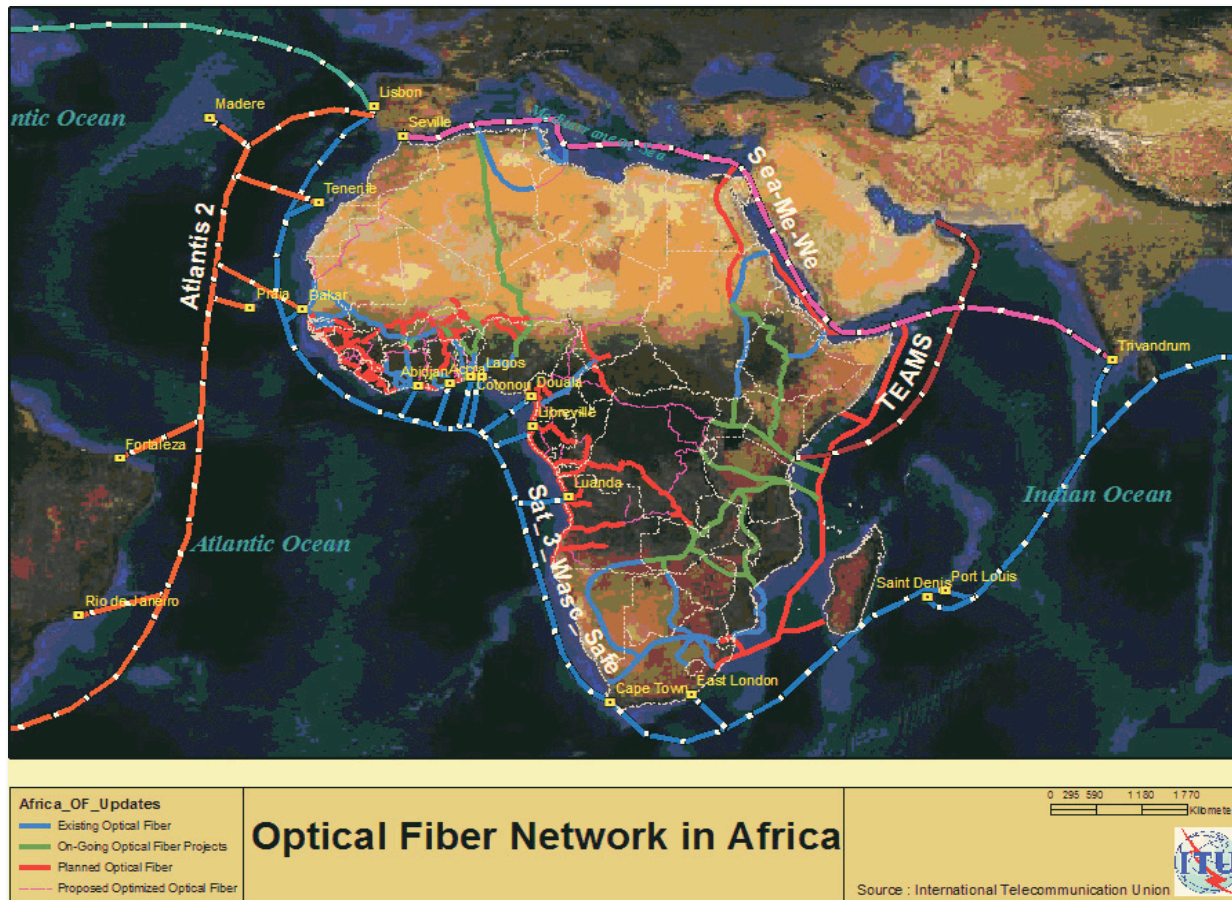

**16 M subscribers  
2000 to 198 M in  
2006**

But...

- internet users penetration of 4,8%
- broadband penetration below 1% (0,12% for sub-Saharan Africa), weak rural connectivity
- interconnection costs, prohibitively high tariffs, weak computer literacy, brain-drain

# Deployment of ICT infrastructures

Need for hybrid solutions : fiber + broadband wireless (satellite/drones/WIMAX/HSDPA)

Need for a comprehensive dedicated approach (regulation, capacities)

## Connect Africa Summit : Kigali, 29-30 October 2007

- Jointly organised by ITU, World Bank, GAID and EC
- Public-private partnerships : link business with development opportunities
- Collective commitments of more than 55B\$ investments in the next 5 years
- WSIS connectivity targets brought forward 2012 instead of 2015

Both ICT and S&T lacked prioritization in the EU Development Programmes (EDF : European Development Funds/ EU = 60% of Africa's ODA)

- misconception : the devt of the Information Society can be left to market forces alone
- fragmented vs dedicated approach
- the « bread vs broadband » debate

Regarding the fragmentation of activities, 2 intra-ACP programmes have been adopted in EDF 9 :

- @CP- IT : 20 M€ for support to regulation and e-policies
- PSTICB : 35 M€ for Science, Technology Innovation and Capacity-Building

# The EU-Africa Partnership on Infrastructures

- Officially launched last October
- 4 sectors : Energy, Water, Transport, ICT / trans-border networks
- 5,6 B€ earmarked from the 10th EDF
- Creation of a Trust Fund with the European Investment Bank ( initial 100 M€ in grants from EC and MSs +260 M€ in loans from EIB)
- Innovative governance : coordination between EU and AU, NEPAD, Regional Economic Communities, African Bank for Development, EIB (interface with Infrastructure Consortium for Africa)
- EASSY (East African Submarine cable) identified as flagship project;

# The EU-Africa Joint Strategy and Action Plan : changing relations

8 Partnerships to be implemented in 2008-2010

- Peace and Security
- Democratic Governance and Human Rights
- Trade and Regional Integration
- Millennium Developments Goals
- Energy
- Climate Change
- Migration, Mobility and Employment
- Science, Information Society and Space

<http://ec.europa.eu/development/services/events/eu-africa-summit-2007>

# **The EU-Africa Partnership on Science, Information Society and Space**

- Science : support to the AMCOST Consolidated Plan of Action
- Information Society : support to ARAPKE (African Regional Action Plan for the Knowledge Economy)
- Space : specific projects based on space technologies to achieve regional and global development goals (environment, climate change, digital divide,...)

**Focus on regional integration !!**

# Information Society Priority

Complement investments on infrastructures through support to key capacity-building initiatives :

- regulation / e-policies / indicators - monitoring
- human resources (education, e-skills, professional training)
- development of local content and e-applications of high socio-economic impact (health, education, govt, trade)
- research and education networks / interconnection with GEANT

**Need for a dedicated fast-track, public-private implementation mechanism : EC/AUC Monitoring + EU-Africa Business Forum**

**Development Aid / Research Cooperation : the chicken and egg situation**

# THE EUROPEAN RESEARCH AREA

## ERA

- Integration of Member States R&D activities
- Increase in (business) R&D to 3% of GDP
- More strategic long-term oriented Framework Programme
  - Larger longer term more strategic projects
  - Mobilise critical mass of researchers / resources across EU
  - Leadership in key technologies for knowledge economy
  - With real benefits to business and citizens

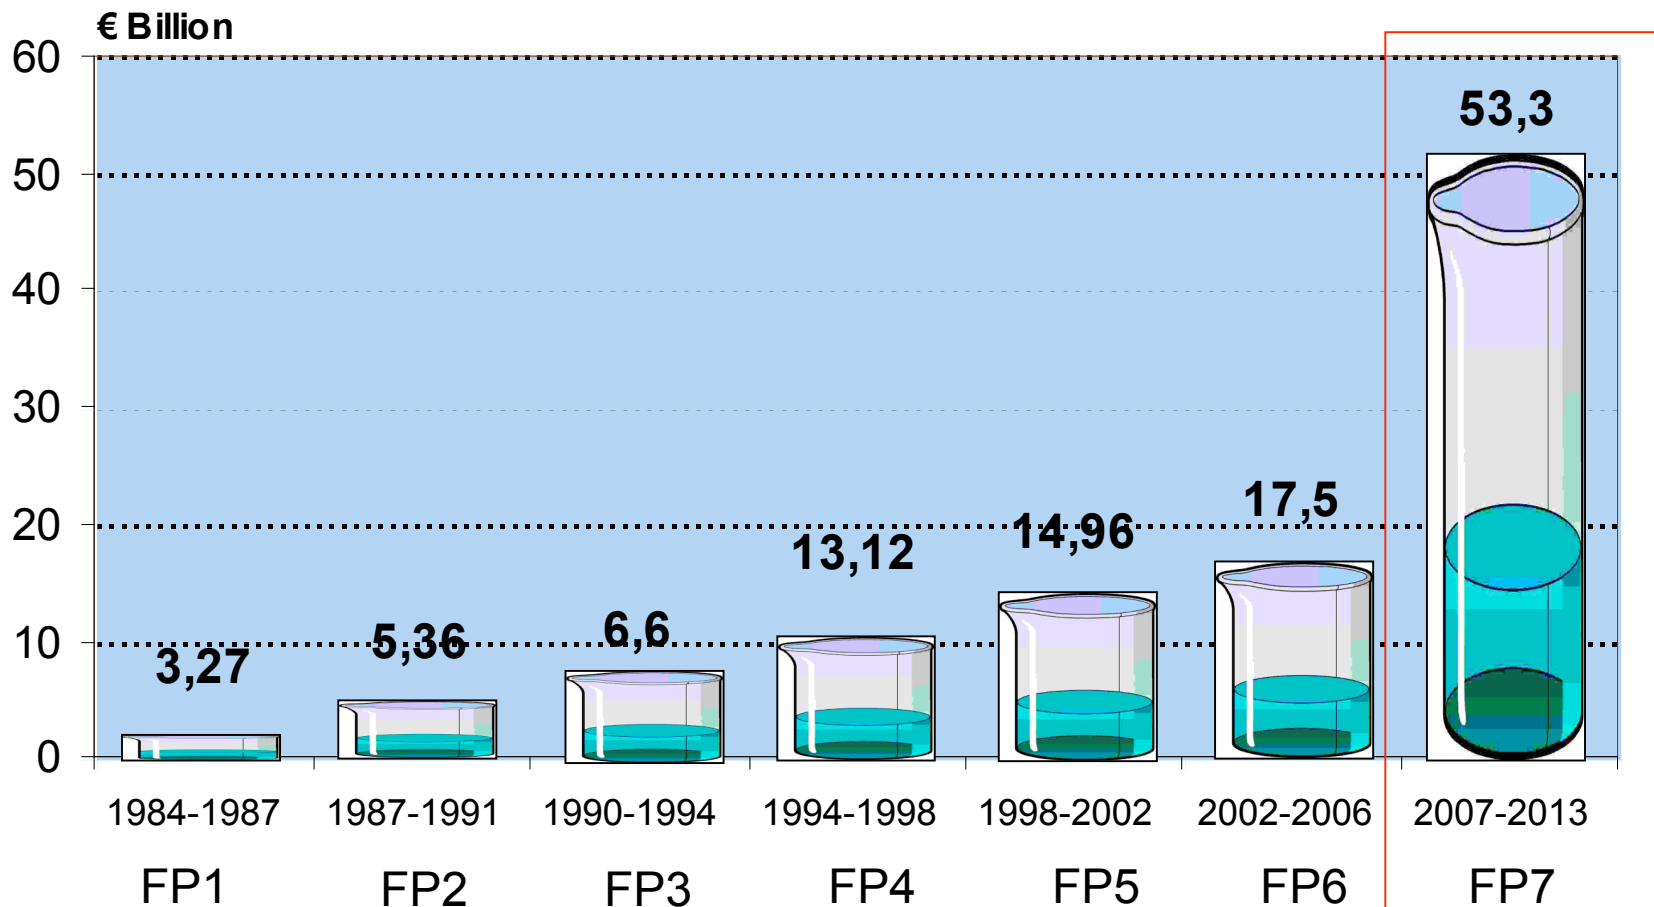

***European Union : an Union of 27  
Member States  
representing 493 million citizens***

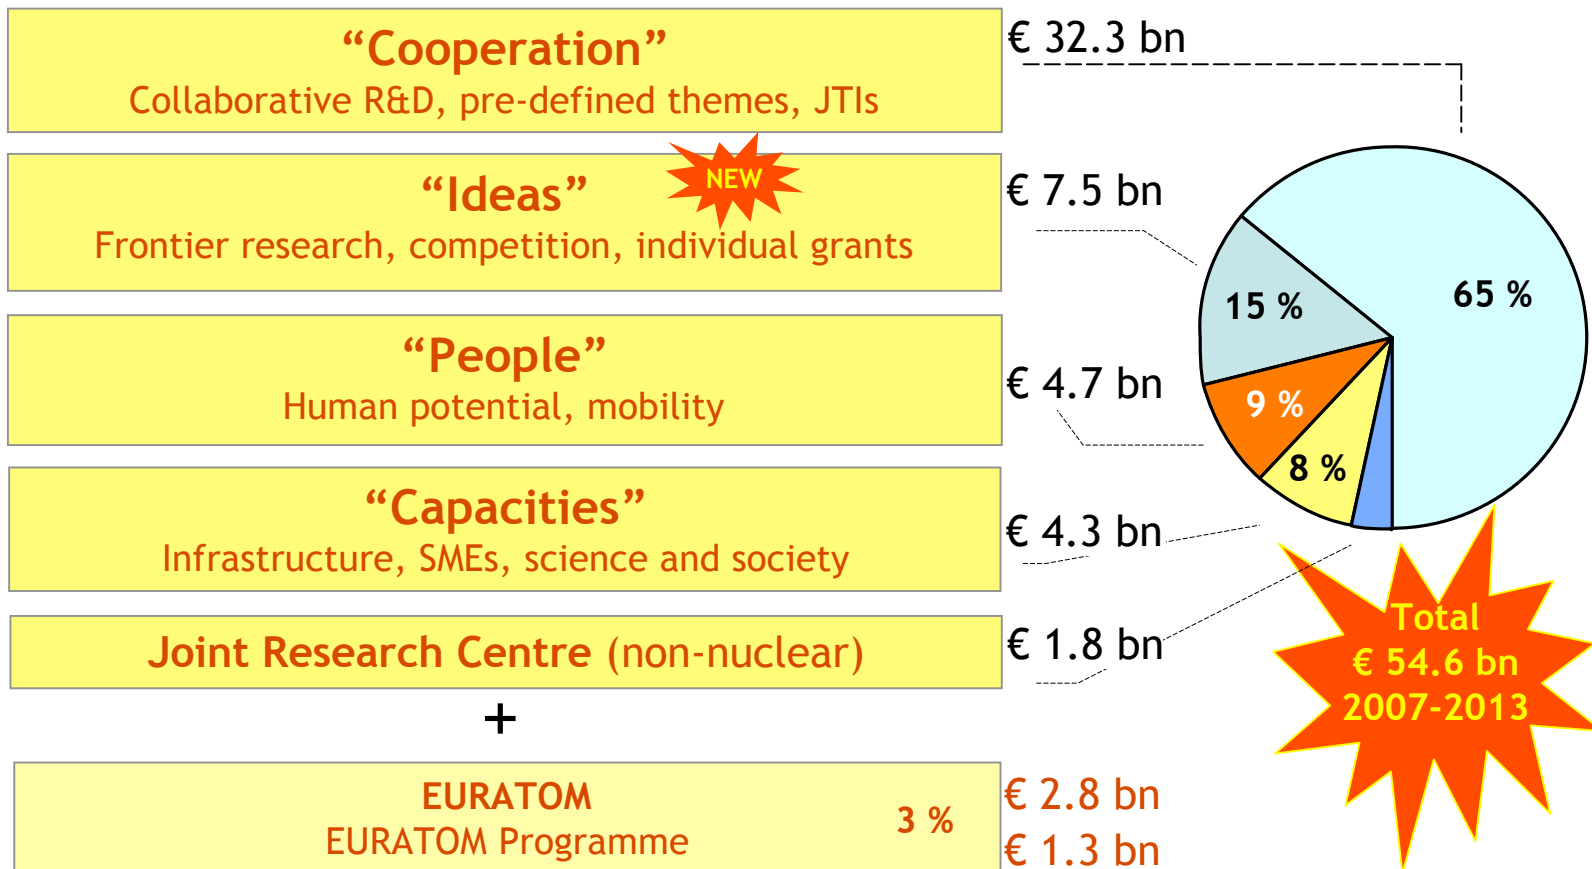

# EU Framework Programmes for R&D

- on top and in addition to EU MSs national programmes
- around **6%** of the **TOTAL EU PUBLIC** investment in R&D

...but **STRONG INTEGRATION EFFECT !**

# FP7 Specific Programmes

# FP 7 STRUCTURE

(2007-2013)

**Co-operation (10 thematic priorities) : 32,4 B€**

|   |
|---|
| Health  |
| Food, Agriculture and Biotechnology                                       |
| <b>Information and Communication Technologies 9,1B€</b>                   |
| Nanosciences, Nanotechnologies, Materials and new Production Technologies |
| Energy  |
| Environment (including Climate Change)                                    |
| Transport   |
| Socio-Economic Sciences and the Humanities                                |
| Security  |
| Space   |

**Capacities : 4,1 B€**

|  |
|--|
| Research Infrastructures                 |
| Research for the Benefit Of SMEs         |
| Regions of Knowledge                     |
| Research Potential                       |
| Science in Society                       |
| Activities of International Co-operation |
| Coherent Development of Policies         |

**Ideas – European Research Council (ERC) : 7,5 B€**

|  |
|--|
| Starting Independent Researcher Grants |
| Advanced Investigator Grants           |

**People – Marie Curie : 4,75B€**

|   |
|---|
| Initial Training of Researchers             |
| Lifelong Learning and Career Development    |
| Industry-Academia Partnerships and Pathways |
| The International Dimension                 |
| Specific Actions                            |

# FP7 INTERNATIONAL DIMENSION

Besides investing in ICT and S&T capacities, the need to engage **in parallel** in actual collaborative research activities....

FP 7 is fully open to the participation of African organisations (fully eligible to receive community funding) :

- horizontal/thematic support actions to promote cooperation (awareness/mapping activities : based on **mutual priorities and interests**
- INCO-net (CAAST-net) to coordinate EU MSs cooperation programmes with Africa

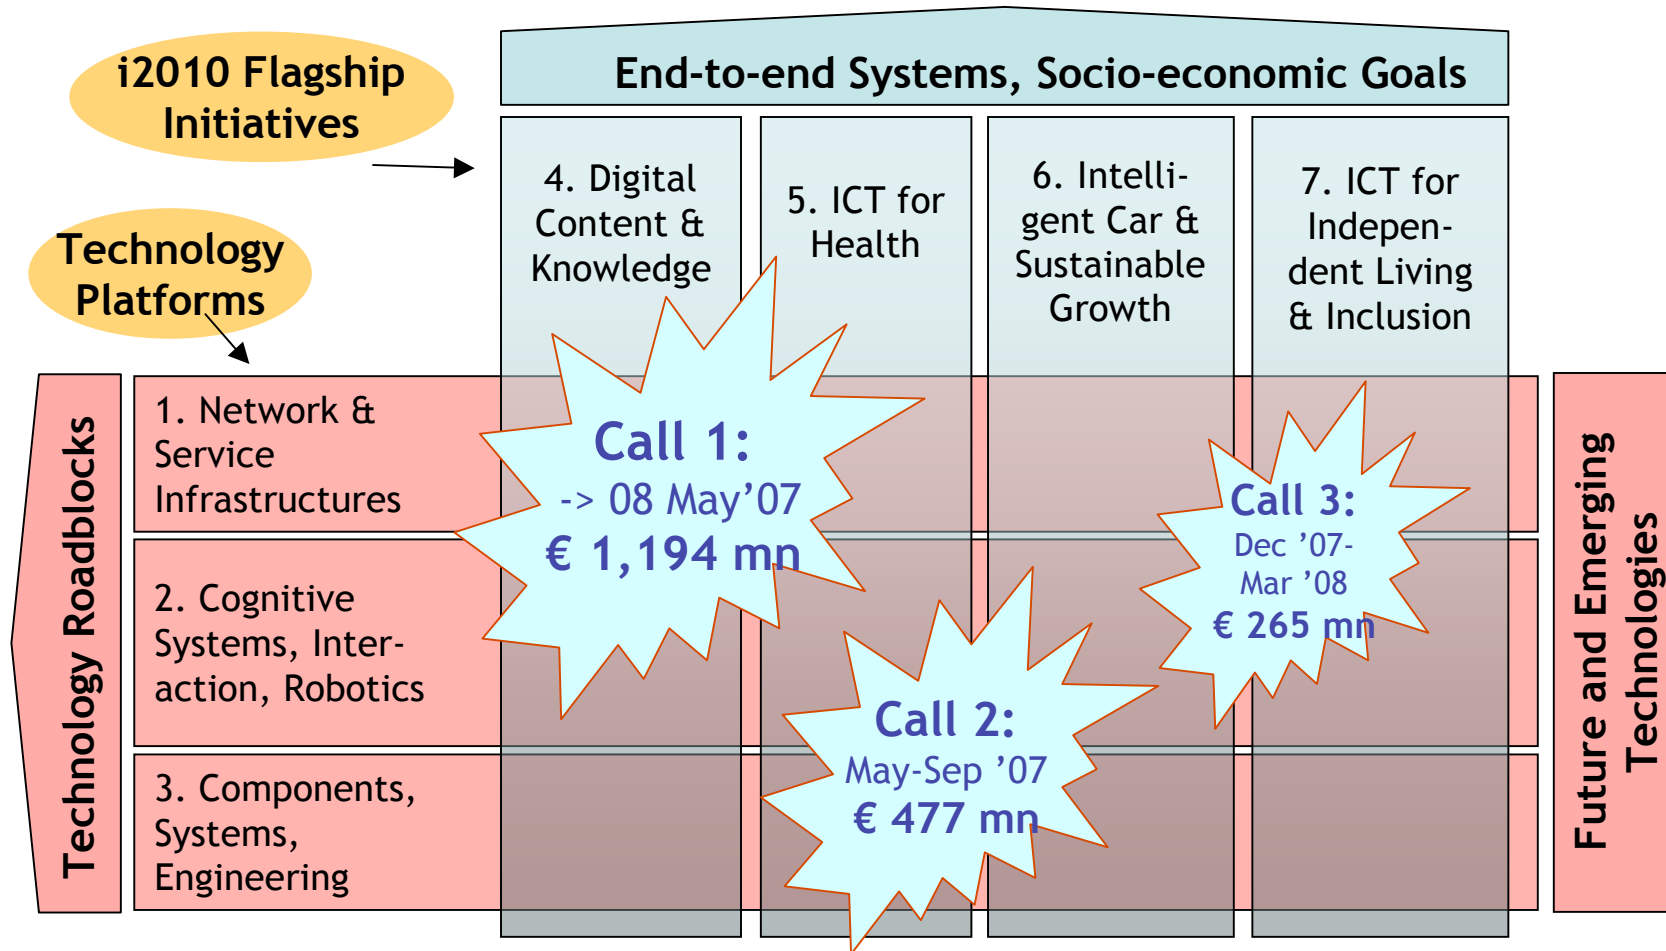

# Cooperation

## Indicative Budget

| Cooperation = 61% of total FP7 non nuclear budget | Budget (B€) | Budget (%) |
|---|-------------|------------|
| 1. Health   | 6           | 19%        |
| 2. Biotechnology, food and agriculture            | 1,9         | 6%         |
| <b>3. Information society (9,1 B€)</b>            | <b>9,1</b>  | <b>29%</b> |
| 4. Nanotechnologies, materials and production     | 3,5         | 11%        |
| 5. Energy   | 2,3         | 7%         |
| 6. Environment                                    | 1,8         | 5,5%       |
| 7. Transport                                      | 4,1         | 12,5%      |
| 8. Socio-economic research                        | 0,61        | 2%         |
| 9. Security                                       | 1,4         | 4,5%       |
| 10. Space   | 1,4         | 4,5%       |
| <b>Total</b>                                      | <b>32.1</b> |            |

incl ITER & Nuclear but not including non -nuclear activities of the Joint Research Centre

# ICT Work Programme 2007-08

WP 2009-2010 currently in preparation

# European Technology Platforms

*A spiral model of innovation capitalising on the multiple reciprocal relationships between public & private stakeholders at various knowledge stages*

31 European Technology Platforms launched so far (9 in ICT):

- Addressing major technological challenges in specific domains
- Aiming to leverage public & private investment for R&D & innovation
- Involving key R&D stakeholders
  - eg industry, the research community & public authorities
- Bundling fragmented R&D efforts towards agreed goals
  - Vision 2020 document & Strategic Research Agenda

[cordis.europa.eu/technology-platforms](http://cordis.europa.eu/technology-platforms)

# European Technology Platforms.

## A staged approach

- Bottom-up process with keys stakeholders in a specific domain

- Key deliverable: Strategic vision document

- Co-ordinated by an Advisory Council

- Consensus-based

- Deployment strategy

- Through collaborative research in FP7 & with other resources, or

- Through a Joint Technology Initiative which integrates funding sources

# Technology Platform ARTEMIS:

Advanced research & technology in embedded intelligence & systems

- To develop & drive a joint European strategy in embedded systems
  - R&D, educational and structural issues addressed
- To align fragmented R&D efforts along a common strategic agenda at European level
- To benchmark & link with relevant initiatives outside Europe

[www.artemis-office.org](http://www.artemis-office.org)

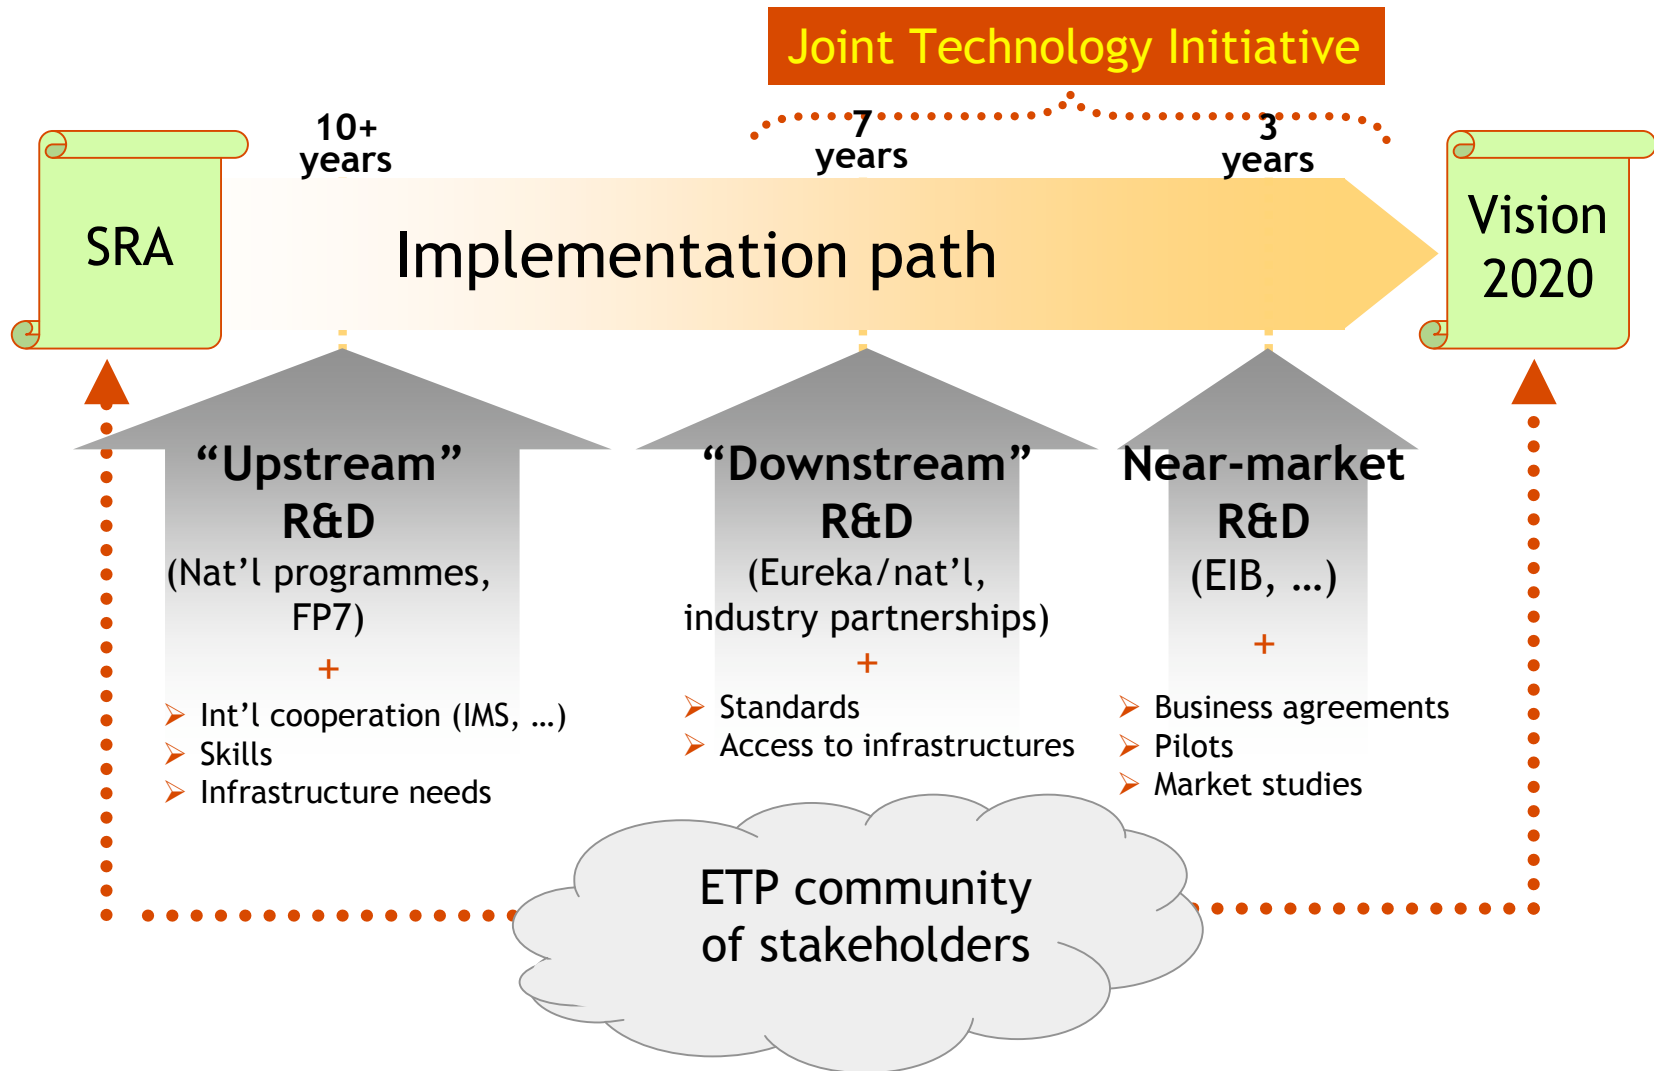

*8 of the 25 top-ranked European companies are members ...*

*... they spend annually € 25 bn in R&D*

# Joint Technology Initiatives

## A way to implement a Strategic Research Agenda

# IST AFRICA 2008, 7-9 May 2008 Windhoek

Conferences & Exhibition

## IST-Africa 2008 Call for Papers

Windhoek - Namibia

07 - 09 May 2008

**Thematic Priorities**

- eHealth - Health Information Systems
- Technology Enhanced Learning and ICT Skills
- Digital Libraries and Content
- Open Source Software - Applications
- ICT for inclusion and eAccessibility
- eInfrastructures
- ICT for Environmental Sustainability
- ICT for Networked Enterprise
- eGovernment - Services to Citizens & Business

**Submission of Papers**

- Paper Focus - Technical, Visionary, Business or Government Case Studies
- Papers must highlight Level of Innovation, as well as Actual or Expected Impact
- Papers must present either a Case Study or Analysis of Initial or Final Research Results
- All Papers must be 4,000 - 5,000 words in length, and use IST-Africa Paper Templates

**Deadlines**

- Online Submission Extended Deadline: 29 December 2007
- Provisional Acceptance: 18 January 2008
- Submission of Final Paper: 29 February 2008
- Presenter Registration: 14 March 2008

**Supported by**

**Hosted by**

**Technical Co-Sponsor**

# How to get started? CORDIS

## <http://cordis.europa.eu/fp7/ict>

The screenshot shows the CORDIS ICT homepage in Microsoft Internet Explorer. The browser title is "CORDIS : ICT : Homepage - Microsoft Internet Explorer provided by European Commission". The address bar shows "http://cordis.europa.eu/fp7/ict/". The page features a navigation menu with links for "Calls", "Library", "FAQ", "Sitemap", and "Contacts". A search box labeled "Search ICTweb" is present. The main content area is titled "Information & Communication Technologies" and includes a sidebar with links to "Programme", "Participating", "Projects", and "Newsroom". The main text discusses the importance of ICT for improving competitiveness and lists three key areas: productivity and innovation, modernisation of public services, and advances in science and technology. It also provides links to download the 'ICT Work Programme 2007-08' and a 4-page overview of ICT in FP7. A "What's New?" section lists recent events like ICT Call 1 and FET Open Call, and a "Newsroom" section lists eHealth Week Berlin 2007 and competition calls on Luxembourg.

### ICT - Information and Communication Technologies

Information and Communication Technologies (ICT) are critical to improve the competitiveness of European industry and to meet the demands of its society and economy.

**ICTs have a catalytic impact in three key areas:**

- **productivity and innovation**, by facilitating creativity and management;
- **modernisation of public services**, such as health, education and transport;
- **advances in science and technology**, by supporting cooperation and access to information.

#### Download the 'ICT Work Programme 2007-08'

The final version of the Work Programme for ICT research in FP7 for 2007 and 2008, as agreed by the Programme Committee, is now available for downloading:  
[ICT FP7 Work Programme](#) (PDF, 479KB)

#### EU funding for the advancement of ICT

The objective of ICT research under the EU's Seventh Framework Programme (FP7) is to improve the **competitiveness of European industry** – as well as to enable Europe to master and shape the future developments of these technologies so that the **demands of its society and economy** are met.  
[Download 4-page overview of ICT in FP7](#) (PDF, 172KB)

The EU Member States have earmarked a total of **€ 9.1 billion for funding ICT** over the duration of FP7; making it the largest research theme in the Cooperation programme, which is itself the largest specific programme of FP7 (with 64% of the total budget).

#### What's New?

# How to get started? Partner search

The screenshot shows a Microsoft Internet Explorer browser window displaying the CORDIS ICT Participating Partner Search page. The browser's address bar shows the URL: [http://cordis.europa.eu/fp7/ict/participating/partner\\_en.html](http://cordis.europa.eu/fp7/ict/participating/partner_en.html). The page title is "CORDIS : ICT : Participating : Partner Search - Microsoft Internet Explorer provided by European Commission".

The page content is organized as follows:

- Header:** "Information & Communication Technologies" with the CORDIS logo and a search bar labeled "Search ICTweb".
- Navigation:** "Home > Participating > Partner Search".
- Left Sidebar:** A menu with options: Programme, Participating (selected), Create project, Partner Search (highlighted), Forthcoming events, Past Events, Calls, Benefit, Projects, and Newsroom.
- Main Content:**
  - Partner Search Facilities:** A section titled "CORDIS" stating that CORDIS has a [number of services and information sources](#) useful for partner search.
  - National Contact Points:** A section explaining that there is a network of [National Contact Points \(NCPs\)](#) for general advice and finding partners.
  - Ideal-ist project:** A section describing the [Ideal-ist project](#) as a web-based platform for finding partners across international boundaries. It lists:
    - joining ICT projects
    - finding partners for your project idea
    - finding services to support you in your ICT project

The browser's taskbar at the bottom shows the Windows Start button, an "Inbox - Microsoft Out..." window, a "Calls" window, and the active "CORDIS : ICT : Partic..." window. The system tray shows the time as 17:08 and the language as DE.
