

# POSIPOL 2016

## vendredi 16 septembre 2016

**Chair: P.Sievers - Salle 101 (09:00 - 14:00)**

time	[id] title	presenter
09:00	[10] Status: Design of the ILC positron target cooled by thermal radiation	S.RIEMANN
09:30	[11] Thermomechanical examinations for the design of the radiation cooled positron target	F.DIETRICH
10:00	[47] Target material tests with the electron beam at the microtron in Mainz	A.IGNATENKO
10:30	Coffee break	
11:00	[49] Target stress simulation	S.JIN
11:30	[50] Rotation target R&D of electron driven positron source	T.OMORI
12:00	[51] ILC Active sliding contact cooling Target R&D update	W.LIU
12:30	[54] Possible technical solutions of conventional and undulator targets	SIEVERS, P.
12:50	Lunch & coffee
