

# PHENIICS Fest 2017

## mardi 30 mai 2017

### Nuclear physics - experimental - Amphithéâtre Pierre Lehman (16:45 - 18:25)

time	[id] title	presenter
16:45	[61] Gamma-ray cascade study in Kr and Ba fission fragments with the EXILL experiment	M. RAPALA, Michal
17:05	[26] Simultaneous measurement of the neutron-induced $^{233}\text{U}$ capture and fission cross sections	M. BACAK, Michael
17:25	[5] The study of gamma emission in the fission process	M. QI, Liqiang
17:45	[15] Transfer reactions induced with $^{56}\text{Ni}$ : pairing and $N=28$ shell closure	Mlle GEORGIADOU, Anastasia
18:05	[25] First life time measurements in the $^{78}\text{Ni}$ region with AGATA and VAMOS at GANIL	M. DELAFOSSE, Clément
