

NDM06

vendredi 8 septembre 2006

(09:00 - 10:40)

time	[id] title	presenter
09:00	[41] Neutrinos in astrophysics	GEORG RAFFELT (MUNICH)
09:30	[42] General review on supernova detectors	KATE SCHOLBERG (DUKE)
10:00	[43] Production of ultrahigh energy neutrinos in hadronic interactions in astrophysical photon fields	TODOR STANEV (NEWARK)
10:20	Coffee Break
