

GDR QCD 2017

mardi 5 décembre 2017

Physique de la saturation et effets collectifs dans les nucléons et noyaux - Amphi Bloch (09:15 - 10:45)

time	[id] title	presenter
09:15	[20] Ultra-forward particle production from CGC + Lund fragmentation	GUERRERO RODRIGUEZ, Pablo
09:45	[21] Moving to NLO accuracy in the saturation formalism	DUCLOUÉ, Bertrand
10:15	[22] NLO description of exclusive diffractive processes with saturation effects	BOUSSARIE, Renaud

Physique de la saturation et effets collectifs dans les nucléons et noyaux - Amphi Bloch (11:15 - 12:45)

time	[id] title	presenter
11:15	[23] Dihadron angular correlation in pp, pA and AA collisions	WEI, Shu-Yi
11:45	[24] High-energy resummation in two heavy-quark pairs production in photon-photon collisions	IVANOV, Dmitri
12:15	[25] QCD resummation effects in inclusive production of a forward J/psi and a backward jet at the LHC	SZYMANOWSKI, Lech
