

# GDR QCD 2017

## mardi 5 décembre 2017

### Interactions simples et multiples entre partons dans les nucléons - Amphi Bloch (14:00 - 15:40)

time	[id] title	presenter
14:00	[12] First measurement of transverse-spin-dependent azimuthal asymmetries in the Drell-Yan process	PLATCHKOV, Stéphane
14:30	[13] Monte-Carlo event generation with radiative QED processes in deep-inelastic scattering	PIERRE, Nicolas
14:50	[14] Scale dependent hadrons light front wave function	TRAWINSKI, Arkadiusz
15:20	[15] Hard photoproduction of a diphoton with a large invariant mass	PEDRAK, Aleksandra

### Interactions simples et multiples entre partons dans les nucléons - Amphi Bloch (16:00 - 17:30)

time	[id] title	presenter
16:00	[16] Covariant extension of the GPD overlap representation at low Fock states	CHOUIKA, Nabil
16:30	[17] Parton distribution amplitudes: revealing diquarks in the proton and Roper resonances	MEZRAG, Cédric
17:00	[18] Hadron energy-momentum tensor and mass decomposition	LORCÉ, Cédric
