## Origins of AI in High Energy Physics from Orsay to Chicago –and back!

*mercredi 27 avril 2022 11:00 (45 minutes)*

The world's first paper on AI in High Energy Physics was written right here in Orsay, 35 years ago. In this presentation, its author outlines the scientific contributions of the article and their impact; gives a historical account of how it came to be written; and presents an overview of what it was like working on AI in HEP in the early days of the field.

**Orateur:** DENBY, Bruce (ESPCI)

**Classification de Session:** AI and physics conference
